

EXPERTS IN LEAD SHEET FOR EXPORT

MORE THAN 35 YEARS OF KNOWLEDGE AND EXPERTISE

At Midland Lead we have been manufacturing lead sheet for more than 35 years. Our knowledge and expertise of producing and distributing lead sheet worldwide is unrivalled.

That's why architects, specifiers, building contractors and roofing merchants throughout the UK and around the world trust us to supply lead sheet for their construction projects.

WHY CHOOSE MIDLAND LEAD

ESTABLISHED

Our 35+ years' experience in the manufacture of lead sheet, together with our knowledge of distributing worldwide means you can be confident that we have the expertise to deliver the products you need, when and where you need them.

QUALITY

Our lead sheet is certified by the British Board of Agreement (BBA) and manufactured to the US specification ASTM B749. Our machine cast lead complies with Building Regulations where applicable, is independently assessed with regards to technical and chemical specification and is subjected to spectro-lab analysis.

TRUSTED

We are a trusted supplier of lead sheet to the construction industry both in the UK and worldwide. Some of our recent projects include Belmont Park Mansion House, Australia and Sidra Medical and Research Center, Qatar.

SERVICE

As an independent manufacturer, we believe in giving our customers the support and attention they deserve. Whether it's sending additional samples, special label requirements or double-wrapping the product, we do all it needs to make sure we meet customer' expectations.

KNOWLEDGEABLE

Our experienced staff are very knowledgeable when it comes down to export documentation and global logistics. From bills of lading to letters of credit and more, we know what it takes to make your export order happen.

Construction

OUR PRODUCT RANGE INCLUDES:

Lead sheet in rolled or flat sheet form, thickness from 0.5 to 3.55mm (UK code 1 – 8)

DELIVERY DETAILS

We pride ourselves for our knowledge and expertise in export and logistics. At Midland Lead we do all it takes to get our products to you, when you need it, where you need it and in impeccable order. Below we give an overview of what you can expect from our deliveries:

1
All our lead rolls are individually labelled to indicate thickness and dimensions

2
Our lead rolls are stacked on a pallet

3
We place silica gel (to absorb moisture) on the pallet and wrap the lead for the first time

4
The lead sheet is shrink-wrapped to keep any moist out

5
The pallet and lead sheet are double wrapped

6
Our pallets are heavy-duty, and where necessary heat-treated

7
Documents are enclosed on the outside of the pallet

8
Double wrapped lead sheet pallet, ready for worldwide transport

Deliveries outside of Europe are mostly shipped to port, where the customer takes care of the final journey. With regards to these container shipments the information here is used by us to palletize the order:

PALLET DIMENSIONS	CONTAINER (5800mm (L) x 2350mm (W))
800 x 1000mm	14 pallets
800 x 12000mm	11 pallets
Mix: 800 x 1000mm & 800 x 1200mm	7 & 7 pallets

STORAGE AND HANDLING TIPS

Lead sheet rolls and lead ancillary products should be stored in a clean, dry area, off the floor and on pallets.

Wear protective gloves when handling lead sheet

Wash your hands thoroughly immediately after you have finished

Don't eat, drink or smoke until you've washed your hands
