Date: 19 July 2012

Dear David

Thank you for giving myself and my colleague; Nigel Shapland, the opportunity to see DM cast lead manufacturing process at your facilities on Friday 6<sup>th</sup> July 2012.

This visit enabled NHBC to see firsthand the quality checks and manufacturing processes that are involved with this method of manufacturing lead.

I can confirm that NHBC is satisfied; having viewed production processes for this method of casting lead and with a valid BBA certificate, that this lead can be acceptable to NHBC when installed within the scope of the certificate and to normal codes of practices.

I trust this provides the confirmation and assurance that you seek from NHBC.

Yours sincerely

Mark Carter (ICIOB)
